2009 – 2013 Little Ilford Secondary School (GCSE's)

English: C	Core Science: C	BTEC Media studies: D*
Maths: B	ICT: B	Additional Science: C
Religious Education: C		

EXPERIENCE

Sahab & Co Solicitors

July 2015-August 2016

I work at Sahab solicitors, where I offered PC support to the

employees at the office by assisting them with any problems they would have with their internet connections and any hardware/software problems. I also have experience with attending calls from clients to create/reschedule appointments with their lawyer.

Satha & Co Solicitors**July 2013-August 2013**

I have gained experience in Satha & Co solicitor office. In this office, I was an Assistant to the solicitor where I was helping the solicitors with filing their folders in order and helping them with incoming and outgoing calls. From the work experience I have gained number of valuable skills such as working effectively as a team member and it helped me to arrange my studies and private time more proficiently. Also, I was able to use the software they were using for their work which was called LOLA.

SKILLS

I have skills such as verbal communication, team work, analysing, self-motivating and I believe all of these skills are essential. Verbal skills, which will let me express my ideas clearly to other members. Analysing this skill will let me gather information and establish the facts and solve the problem. I also have skills in IT which includes using Microsoft Word, Excel and PowerPoint, I strongly agree that IT skills are fundamental in future.
